

HATCHWAY
UPVC Doors & Windows

HATCHWAY

Hatchway is one of the pioneer manufacturers and supplier for uPVC/PVCu doors and windows specialized in creative installations. It has been designed keeping the usability and client satisfaction in mind. Hatchway provides end-to-end services right from technical support, surveying, quoting to installation. PVCu windows from Hatchway are built according to a carefully designed profile concept. This concept allows for many different window designs, with the greatest variety.

With Hatchway products, you can implement your very own personal style windows of all shapes and designs. When it comes to making your ideas reality, Hatchway profile systems give you virtually unlimited freedom. It gives you a lot of flexible option which suits your interiors.

The precision engineered into the uPVC window profile systems offer strength and quality. It has been tested for various parameters from ease of access and durability.

Windows and doors made from Hatchway profiles are suitable for all sorts of interiors. The high performance Upvc windows and doors outperform the alternatives in all the conditions and weathers.

Cutting edge towards innovation, Hatchway makes the perfect use of its raw materials, while delivering the doors and windows that perform at the top of industry standards for thermal insulation, sound insulation and burglary resistant.

HATCHWAY

TYPE OF DOORS AND WINDOWS

HATCHWAY gives high consideration to the international design requirements and the customers' personal needs. The profile systems developed are comfortable, economical, strong, and consist of an environmentally friendly material.

According to the weather and construction requirements of the Indian Subcontinent, HATCHWAY supplies various opening styles, such as horizontally sliding, outward-opening and tilt and turn window and door systems.

HATCHWAY EDGE

High efficient wind capacity performance

The strong and sturdy structure of high efficient wind capacity performance, keeps you safe indoors even in the extreme weather situations. It is highly durable.

Thermal Insulation

Tried and tested in the tropical and cold areas, it has performed as an ace in all the aspects. Its sustainability marks its own benchmark.

Water Proofing

Hatchway PVC-U windows do not let water inside and destroy your interiors. Even at the coastline areas, it has been appropriate.

Environment Friendly (Lead Free)

Keeping the eco system in mind, we have designed our PVC-U windows and doors, lead free, which makes it altogether an environment friendly product as well as acts as a family protector.

Sound Proof

Get your piece of peace with the sound proof windows from the home of hatchway. Your way to peaceful interiors is now simpler.

Air Tight

The scientific structure of hatchway, denies any entry of air or dust particles giving you a healthy and a safe environment.

Fire Resistant

The high quality materials used in the doors and windows have a particular element used which makes it fire resistant and your family safe and sound

Long Lasting

Hatchway has been made such sturdy, that its durability becomes a boon for it's used. Being tested in multiple areas and atmosphere, it becomes a proof to any external damage.
